TLC Eyecare & Laser Centers Celebrate 30 Years of Service

Since it's founding in July of 1978 by Paul H. Ernest, M.D., our practice has upheld a tradition of eye care excellence. It all started with one office in Jackson, known then simply as "Paul H. Ernest, M.D." In 1984, it became the Jackson Eye Center, and was later changed to Mid-Michigan Eye Care Center to reflect the growth of the practice. The Chelsea location was incorporated in 1990; and in 1994, we became known as Eye Care Physicians of Michigan with offices in Battle Creek, Lansing and Ann Arbor being opened over the next few years. In 1998, when we changed our name from Eye Care Physicians of Michigan to TLC Eyecare & Laser Centers, we added the distinction of being the leading specialists in laser vision correction to our established reputation as the best diagnostic and surgical eye care facility in all of mid-Michigan.

Sue DeMott, Executive Vice President of TLC Eyecare & Laser Centers stated "With decades of cumulative experience, our ophthalmic surgeons are the foundation of our practice and are recognized worldwide as eye care leaders. We are excited to continue to serve the community for many years to come".

TLC Eyecare & Laser Centers offers comprehensive eye care services in many locations across Michigan and Ohio. Our medical professionals specialize in a wide array of surgical eye procedures and deliver their services in the finest facilities in the area. Services include treatments for diseases of the eye, cataracts, corneal disease, glaucoma, dry eye, macular degeneration, and diabetic eye care.
