**TLC Eyecare & Laser Centers of Michigan, Welcomes Back
Surendar Purohit, M.D., Vitreoretinal Specialist**

Diabetic retinopathy is the most common eye disease associated with diabetes and it is one of the leading causes of blindness among Americans. Blood sugar can get too high which can damage the blood vessels in your retina. Finding and treating the disease before it causes vision loss or blindness is the best way to control diabetic eye disease. Eye problems can occur at any age, but the chance for developing them increases as we age. Vision problems can affect a person's overall health, causing disability, stress, and a decreased quality of life.

TLC Eyecare & Laser Centers of Michigan, **welcomes** the return of **Surendar Purohit, MD**. Dr. Purohit is a graduate of the University of Michigan, and served his internship at Case Western Reserve University in Cleveland Ohio. Dr. Purohit is a Vitreoretinal Specialist, providing surgical treatment of diseases of the retina and vitreous including: laser treatment for diabetic retinopathy, vein occlusions, macular degeneration and retinal tears. Intravitreal triamcinalone therapy, Macular translocation, Photodynamic therapy, repair of retinal detachment, scleral buckle surgery, vitrectomy surgery, including for macular holes, macular pucker, diabetic retinopathy, vitreous hemorrhage and treatment for intraocular infection, as well as Branch retinal vein sheathotomy.

Surendar Purohit, M.D. prides himself by providing only the highest quality and most ethical care for all of his patients, making it a point to stay completely up to date on all aspects of retinal care. "I do my best to make sure that every patient leaves our office having all of their questions answered and fully confident in the quality of care they have received."

“TLC is very excited with Dr. Purohit’s decision to move back to Michigan”, says Sue Demott Executive Vice President for TLC Eyecare & Laser Centers. “He is an excellent Vitreoretinal Specialist and has many years of experience in treating patients. His return will help TLC sustain our vision of being the leaders in surgical eye care.”
